The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-40 are rejected as being based upon a defective reissue declaration, filed on 05-30-2008, under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claims 1-40 are allowed.

Reasons for indicating allowable subject matter

The prior art fails to disclose a plasma doping apparatus and/or method having a Faraday cup positioned adjacent to a platen for collecting a sample of positive ions accelerated across a plasma sheath as recited in claims 1, 19, 28 and 36.

Applicant's arguments filed on 05-30-2008 have been fully considered but they are not persuasive in view of the foregoing reasons. Further, it is noted that the declaration filed on 05-30-2008 does not identify any error in claims 1-40. Since, claims 1-40 are original claims from US Patent No. 6,020,592.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
